

91001 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

91002 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

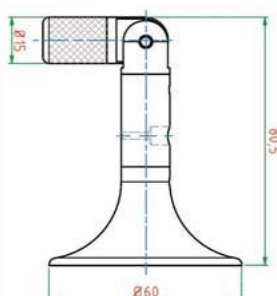

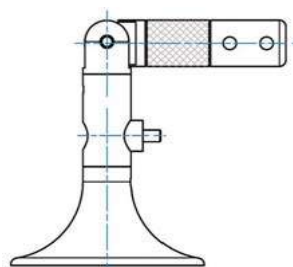

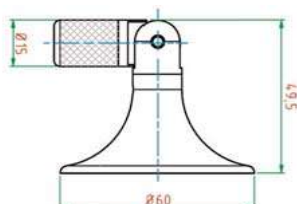

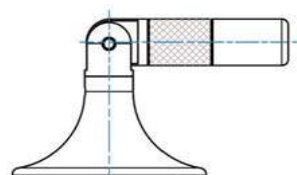

Tensionamento con due cavetti d'acciaio delle stesse misure per strutture reggipiani

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 4

Tension system with two steel wires of the same sizes right to fit shelves

Finish : nichel plating; chrome plating

91003 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 2

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 2

Finish : nichel plating; chrome plating

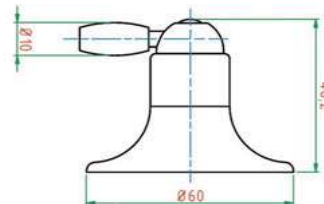

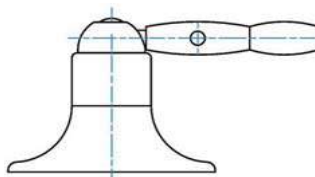

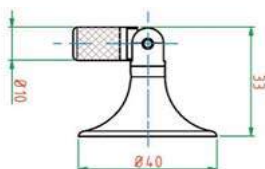

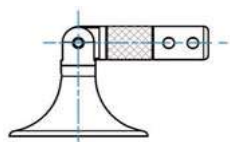

91004 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

91005 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

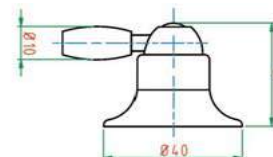

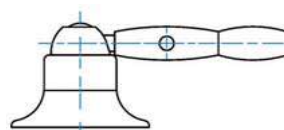

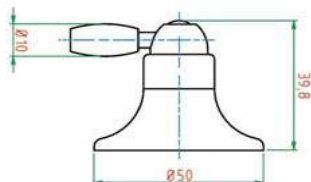

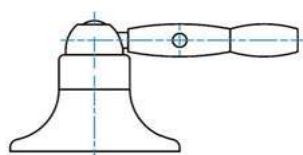

91006 TENSOR

Sistema di tensionamento in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for adjustable steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

91007 TENSOR

Sistema di tensionamento in ottone per barretta con diametro max. fino a mm. 6
Finiture disponibili : nichel lucido; cromo lucido

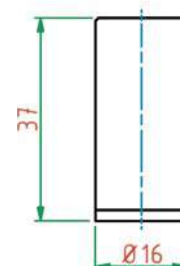

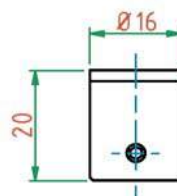

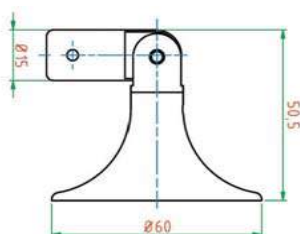

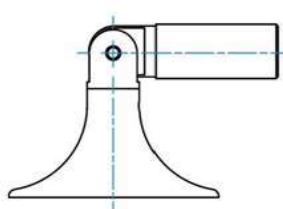

Brass tension system using rod with a max diameter of mm. 6
Finish : nickel plating; chrome plating

97616

Sistema di tensionamento in alluminio per barretta con diametro max. fino a mm. 6
Finiture disponibili : cromo lucido; ossidazione colore naturale

Aluminium tension system using rod with a max diameter of mm. 6
Finish : chrome plating; natural anodizing

91008 TENSOR

Contrappeso per sistemi di tensionamento per cavetti d'acciaio con diametro max. fino a mm. 2

Materiali disponibili : ferro; ottone

Finiture disponibili (solo per ottone) : nichel lucido; cromo lucido

Counterweight right to be used with brass tension system using a max steel wire diameter of mm. 2

Materials : steel; brass

Finish (only for brass) : nichel plating; chrome plating

91009 TENSOR

Contrappeso per sistemi di tensionamento per cavetti d'acciaio con diametro max. fino a mm. 2

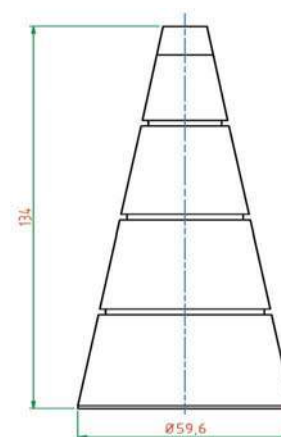

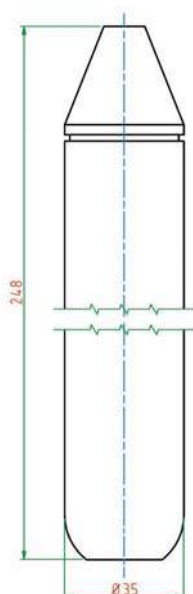

Materiali disponibili : ottone

Finiture disponibili : nichel lucido; cromo lucido

Counterweight right to be used with brass tension system using a max steel wire diameter of mm. 2

Material : brass

Finish : nichel plating; chrome plating

3223

Sistema di tensionamento fisso in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

3487

Sistema di tensionamento fisso in ottone per cavetti d'acciaio con diametro max. fino a mm. 4

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for steel wire using a max diameter of mm. 4

Finish : nichel plating; chrome plating

36900

Sistema di tensionamento fisso in ottone per cavetti d'acciaio con diametro max. fino a mm. 5

Finiture disponibili : nichel lucido; cromo lucido

Brass tension system for steel wire using a max diameter of mm. 5

Finish : nichel plating; chrome plating
